

	AUTUMN	SPRING	SUMMER
YEAR 1	 <p><b><u>ICT &amp; Computing</u></b> Digital technology is part of our everyday life, at home and at school. When we watch TV, use the phone, play a game on the computer or email a friend, we are using digital technology. We can also use it to help with our learning in other subjects, and connect with people and places across the world – there is so much to learn about, and so many exciting programs to explore, let’s get started!</p>  <p><b><u>What Is It Made Of?</u></b> Everything we touch is made up of a material: wood, plastic, fabric, glass, gold, steel, etc. We use different materials to make different objects. Why? We are going to find out.</p>  <p><b><u>Time Travellers</u></b> To step back in time we have to become a history detective. We have to find and solve the clues to unlock the mysteries and meaning of past events.</p>	 <p><b><u>Live and Let Live</u></b> What do living things such as animals and plants need in order to survive and grow? Do humans have the same needs? What is the difference between a living thing and something that has never been alive? We are going to find the answers to these key questions in this unit.</p>  <p><b><u>Flowers And Insects</u></b> Have you seen any flowers today? Where did you see them? Have you seen any insects? Where did you see them? Flowers and insects need each other. Without insects there would be no flowers. And without flowers insects would go hungry.</p>	 <p><b><u>Hoorah...Let’s go on Holiday</u></b> Holidays are special days when we take a rest from school and work. Our holidays in the past were very different from holidays today. Now that we can travel to all parts of the world and even space, who knows where we will go for our holidays in the future?</p>  <p><b><u>The Magic Toymaker</u></b> Toys come in many shapes and sizes. They are made of different materials but all are designed for us to have fun with, to learn new skills and to exercise our bodies and our imagination.</p>
