

	AUTUMN	SPRING	SUMMER
<b>YEAR 2</b>	 <p><b><u>Brainwave</u></b> Our brain is special because it does many amazing things. Once we understand how our brain works and what we can do to make it work even better, then we can improve the way that we learn.</p>  <p><b><u>Superhumans</u></b> Your body is a bundle of bones, muscles, senses and nerves all connected together to make you a human. But do you know how these parts of your body work with your brain? Let's find out.</p>  <p><b><u>People of the Past</u></b> History is one big story, filled with important people who did many great things - scientists, rulers, artists, writers, explorers. By learning about these people and what they did, we can find out more about the qualities that make someone great.</p>	 <p><b><u>From A to B</u></b> - Every day people all over the world make different types of journeys – on land, on sea and in the air. To make these journeys we have invented lots of different ways of getting from A to B.</p>	 <p><b><u>Media Magic</u></b> We now have more ways of communicating with each other than ever before. From being able to text or phone, send emails, create our own films, share photographs, opportunities to communicate in different ways are growing at an incredible rate. This unit looks at how we can become really good communicators.</p> <p><b><u>Transition Unit</u></b> Moving on and how we adapt to change in our world. Year 3 children work with Year 2 to mentor them to understand and experience the changes that take place as they move on to Key Stage 2.</p>
